Do You Have IPD News That You Want to Share With the Industry?

Just as the Big Room is successful through the respectful sharing of collaborative voices, so is the IPDA. While your board works hard to research and educate ourselves about ongoing IPD projects, opportunities and challenges we are but a handful of resources. We welcome your submissions to our monthly updates - know of a project that you are involved in, a big a-ha moment, or perhaps a way that you as an Owner has been able to move forward with your first IPD project? Consider sharing with your fellow IPDA members by submitting through info@ipda.ca

Update on the Annual Action Agenda Strategy Planning & AGM held Oct 27, 2020

Thank you to those of us that were able to join us on October 27th. The general consensus was that this year's event, the first to be delivered digitally, was a success and you have given us a lot to work with for the upcoming year. Stay tuned for further details and opportunities to become more involved with your IPDA Membership!

In the meantime, we invite you to congratulate our incoming Board Members (effective January 2021); Ken Jaeger (KTJ Consulting) and Patrick Taylor (WSP), as well as returning Board Members John Ford (LEA Consulting), Bill Lett (Lett Architects), and Louise Panneton (P-1 Consulting)

UPCOMING EVENTS TO WATCH FOR AT WWW.IPDA.CA/EVENTS

<p>IPD: A DEEPER DIVE - CREDITS: 5.0 AAA STRUCTURED LH This is a virtual conference designed for practitioners or people who want to dig into application of IPD principles, tools and techniques. Sessions include: Barriers to IPD Research (Sheryl Staub-French, UBC and Puyan Zadeh, UBC), IPD 101 (Dathe Wong, HDR), Validation - Purpose & Keys to Success (Markku Allison, Chandos), Target Value Design - Purpose & Keys to Success (Craig Webber, Group2 Architecture), Owners + IPD - FAQs (Rick Pews, City of Barrie James Pease, UCSF Terri Gosine, Edmonton Public Schools Carly Norris, City of Kamloops), IPD Contracts (Geza Banfai, McMillan LLP), IPD & Collaborative Construction Application in the Field (Henry Nutt, Southland Industries), Q&A with the Experts (Bill Lett, Lett Architects John Ford, LEA Dean Loewen, Altac Mechanical Ken Jaeger, KTJ Consulting)</p>	<p>November 19, 2020 11:00 AM - 5:00 PM EST Register through link at www.ipda/events</p>
<p>IPD - WHAT GOES WRONG - CREDITS: OAA 3; 3.0 AAA STRUCTURED LH IPD is a method of delivery that incentivizes continuous improvement. This session will explore challenges commonly experienced on IPD projects. After a short introduction, participants will engage in facilitated breakout sessions to discuss selected topics: (1) Procurement and contracts, (2) project controls, (3) co-location and validation, and (4) team culture. Each group will explore what goes wrong on IPD projects and strategies used to recover or correct these issues. A summary of the findings will be presented by a panel of facilitators to end the session linking the discussion and strategies to the various research and tools available to support IPD adoption in the industry. Participants will gain insight into the agility and flexibility of IPD and what strategies can help harness this for the benefit of your project. We are also excited to be able to offer 20% discount to our members for the IPDA session. Email us at info@ipda.ca for further information.</p>	<p>November 25, 2020 11:00 AM - 2:00 PM EST Register through link at www.ipda/events</p>
